

Mohit Waykole

Computer Engineering Student | Aspiring Game & Full-Stack Developer

+91 88795 16321 • mohitwaykole31@gmail.com • github.com/osmund-saddler19 • linkedin.com/in/mohit-waykole • Mumbai, India

CAREER OBJECTIVE

Aspiring Computer Engineering student passionate about building immersive gaming experiences and scalable full-stack applications. Seeking opportunities to apply strong programming foundations in game development, 3D environments, and interactive technologies. Committed to continuous learning and contributing to meaningful projects through Unity, Unreal Engine, and modern web development tools.

EDUCATION

- St. Aloysius High School — Nallasopara East** Passed: 2023
Secondary School Certificate (SSC) – 10th Standard | Percentage: 84.60%
- Shri Bhagubhai Mafatlal Polytechnic and College of Engineering — Mumbai, India** 2024 – Present
Diploma / Degree in Computer Engineering
- Relevant Coursework: Programming Fundamentals, Data Structures & Algorithms, DBMS, Computer Networks, Operating Systems, Digital Electronics, Software Engineering, Web Technologies

TECHNICAL SKILLS

Game Dev & Design: Unity Engine 6, Unreal Engine 5, Blender 3D
Programming Languages: C, C++, C#, Java, Python, JavaScript
Web & Databases: HTML5, CSS3, Responsive Design, SQL (Advanced), MongoDB
Tools & Platforms: Git, GitHub, Linux, Kali Linux, Computer Networks
Languages: English, Hindi, Marathi

CERTIFICATIONS

- Unity Essentials Pathway — Unity Technologies** Game Development Certification
• Foundational knowledge of Unity Engine, game development workflows, scene creation, and building interactive experiences.
- SQL (Advanced) — HackerRank** Database Certification
• Complex queries, joins, window functions, data analysis, and database optimization techniques.
- SQL (Intermediate & Basic) — HackerRank** Database Certification
• Subqueries, aggregations, data filtering, and foundational database operations.

PROJECTS

- Nova Gaming Marketplace – Interactive Gaming & E-Commerce Platform | HTML, CSS, JavaScript** 2024
- Developed a modern gaming-themed website with immersive video backgrounds, animations, and responsive design.
 - Built an integrated product marketplace allowing users to browse gaming-related products.
 - Implemented interactive navigation, product sections, and user authentication pages.
 - Designed engaging UI/UX with smooth transitions and multimedia content.
- Personal Portfolio Website | HTML5, CSS3, JavaScript** 2025
- Built a fully responsive personal portfolio website from scratch using vanilla HTML, CSS, and JavaScript.
 - Implemented a dynamic video background system that changes contextually across different sections of the site.
 - Showcases skills, certifications, and projects with smooth UI interactions and cross-browser compatibility.

KEY ACHIEVEMENTS

- Attained proficiency in multiple programming languages including C, C++, C#, Python, Java, and JavaScript.

- Earned HackerRank certifications in SQL at Basic, Intermediate, and Advanced levels.
- Completed Unity Essentials Pathway, building a solid foundation in real-time game engine workflows.
- Developed hands-on experience with Git and GitHub, following professional version control best practices.
- Continuously expanding knowledge across game development, web technologies, and computer engineering domains.

HOBBIES & INTERESTS

Football — Passionate about team sports; playing football sharpens strategic thinking and teamwork.

Cricket — Avid cricket enthusiast with a keen interest in match analytics and gameplay tactics.

Chess — Enjoys the mental discipline of chess — developing problem-solving and forward-planning skills.

Photography — Captures compelling visuals with an eye for composition, lighting, and storytelling through imagery.
